Die Seele der Möbel

So wie das Festhalten an ehrgeizigen Plänen ein Teil unserer Vergangenheit war ist es ein Teil unserer heutigen Philosophie unsere Produkte besser, schöner und praktischer zu machen.

Heute ist es sogar noch wichtiger eine neue Idee mit äußerster Präzision zu realisieren.

Egal wie kompliziert ein Produktdesign ist - wir sorgen dafür das feine und kleine Details in der Produktentwicklung erhalten bleiben - um Ihre Vision zu realisieren.

Denn: Die Seele eines Möbels zeigt sich mit dem Beschlag, den Sie berühren. Deshalb lieben wir es Möbelschmuck - "**Fashion for furniture**" herzustellen.

The Soul of Furniture

Sticking to ambitious plans has been much a part of our past as it is a part of today's philosophy - making things better, more beautiful and more practical with each and every product.

Today it is even more important, however to turn a design into reality with utmost precision.

No matter how complicated the design is, we make sure we never lose sight of all the fine details - to realize your vision.

The Soul of furniture is revealed with the handle you touch.
That's why we love to do "**Fashion for furniture**".

HANDLES

Unsere Produktion begann mit 3 Designs von Möbelgriffen. Wir haben Millionen von diesen 3 Erfolgsdesigns produziert - und produzieren diese Modelle bis heute. Wir legen Wert auf Design, das langfristig erfolgreich ist. "Möbelgriffe" sind unsere Kernkompetenz - in diesem Kapitel finden Sie sowohl dekorative als auch zweckmäßige Produkte.

Fashion for furniture!

Our production started first with 3 handles designs only. These 3 furniture handles were produced in millions - and are still produced till today. We pay attention to design that lasts. "Furniture Handles" is one of our major product groups and this chapter offers decorative as well as practical products.

Design!

Was ist gutes Design und was schlechtes Design?
Jedenfalls viel mehr als nur eine Geschmacksfrage.
Design bestimmt, wie gut ein Produkt seine Funktion erfüllt.
Wie einfach es sich bedienen lässt - wie lange es hält - und
sogar wie es die Umwelt schont.
Gutes Design ist somit ein Erkennungsmerkmal der besseren
Produkte.
Für uns ist Design ein Teil der Firmenphilosophie

Design ist die DNA der Marke SMD.

What is good Design - what is bad Design?
This is - in any case - much more than a taste question.
Design determines how well a product performs its
function.
How easy it can be used - how long it lasts - and how it spares
the environment
Good Design therefore is a recognition feature of better
products.
For us Design is a part of our company philosophy

Design is the DNA of the brand SMD
